SMD Component counter

COU2000ADV (with empty chip detection)

Features :

Motorized electron-optical SMD components counter, works by counting numbers of SMD reel tapes, accurate and fast.

1, The automatic counter sets up and changes over fast,count out an entire reel or a specific number of parts to prepare for you next job,and you've got the right amount.

2,Easy operate,designed to prevent tape dropping,minimizing risk of damage to tapes.

3,Count forward and backward,double-check feature ensures accuracy,built-in memory allows you to preset count quantity.

4,The counter use drafting LCD screen.

5,Use patent reflector,humanized operation platform.

6Machine auto stop when preset quantity is reached

Specifications:

Power supply: 220V (50Hz) or 110V(60Hz)

Counting capability: -59999 to 59999pcs

Size: 410(L)*235(W)*240(H)mm

Net Weight:9kg

Universal Products:

1, Suitable for SMD universal package components;

2,Dia. Reel: Suitable for 7" and 13" reels ;

3, Width of tape:8,12,16,24,32,44,56,72,88(mm)

4, Pitch of tape: 1/2,1,2,3,4,5,6,7,8.........mm

Installation :

1.Pannasonic motor , Smooth operation, good stability, high accuracy calculation zerro error.

2.The left and right tray are with steel material ,long use life ,not easy damage

SAMTRONIK

Options:

Label printer

Barcode reader
